Skills

- JavaScript
- React
- CSS
- SASS
- HTML
- GIT

Languages

- English (B2)
- Polish (Native)

Education

- Musicology, University of Warsaw

(September 2012 – June 2014)

About Me

I've studied knowledge and tools in Front-end developing from the beginning of 2022 on my own. After 10 years spent in music business I want to change my profession to one, where I can learn and develop new skills. I would like to use my professionalism, curiosity and determination on a new path.

Projects

- Jazz Questionnaire

My original project in React.js. The code was written entirely by me. I was concentrated on JavaScript and React's main concepts like Hooks, Forms, Props, JSX and others. I was responsible for: conception of project, whole layout and style of the quiz, meritorical content and of course programming content. Technologies I used in project: HTML, CSS, JavaScript, React, RWD.

- Add Expenses List

Project based on good habits in React.js and basic skills like hooks, components, JSX, etc. *Add Expenses List* was part of *Modern JavaScript Course* by The NinjaNet.

- Shop Webpage

To do this webpage I based on AdobeXd project. Projects includes technologies like HTML, CSS, SCSS, RWD, BEM.

- Weather App

Project is concentrated on API and Async JS. I made project in Vanilla JavaScript. *Weather App* was part of *Modern JavaScript Course* by The NinjaNet.

Employment History

- Freelance Pianist, Arranger, Composer and Educator (From 2014)
- I composed music on my own band's album (GCh+ "Timelapse") and co-produced every steps of this album production: concept, financing, project management, release, distribution and promotion.
- I arranged and played piano for commercial of Reserved brand.
- I was leader of musician bands in theaters.
